

Modelling for Fused Filament Fabrication Additive Manufacturing Process

READ ME

The submission consists of following files:

1. Graphical Representation1.pdf
2. Modelling-for-Fused-Filament-Fabrication-Additive-Manufacturing-Process_WriteUp_Complete.pdf
3. Description_of_Nomenclature.pdf
4. ReadMe.pdf (This File)

There are 6 deliverables according to competition rules:

1. Graphical representation
2. Transformation Functions
3. Description of Nomenclature
4. Read Me Section
5. Written Narrative

The document “Modelling-for-Fused-Filament-Fabrication-Additive-Manufacturing-Process_WriteUp_Complete.pdf” consists of transformation functions, nomenclature description (in Bibliography) and written narrative. This document also provides the complete description and analysis of the model along with a section on validation method used.
