# Section 2: Understanding MIPS

This section allows you to navigate by scrolling through the 4 pages detailing the basics of MIPS.

## Summary:

- A - Definition of MIPS
- B - How MIPS Works? (Starts on Tab 1, with 3 more tabs to click through)
  - Part 1: Details how the scores of each category function
    - You can click these tiles to display more information about each of the categories in a popup
  - Part 2: Details how the totaled score of all categories will function based on currently defined MIPS standards.
  - Part 3: Displays the Percentage of the weights of each category for the 2019 Payment Years
  - Part 4: Displays the Percentage of the weights of each category for the 2021 and Beyond Payment Years
    - Both pie chart will have labels, have interactive qualities, and prompt the user to click each slice to display a popup containing more information
- C - The Timeline of the Implementation of MIPS from 2016-2025
- D - Qualifications for MIPS
  - The flow chart will use a visually pleasing design library which will let users view each stage of determining their eligibility for MIPS

2: The pie chart will have labels on what each section is.

3: Each of the sections in the timeline will be clickable to display information about each year's changes

# What is MIPS?

The Merit-Based Incentive Payment System (MIPS) is a new payment mechanism that will provide annual updates to physicians starting in 2019, based on performance in four categories: quality, resource use, clinical practice improvement activities and meaningful use of an electronic health record system.

MIPS Will Replace the FLawed Medicare sustainable growth rate (SGR) formula that calculated payment cuts for physicians.

# How does it Work?

Part 1

Part 2

Part 3

Part 4

MIPS consolidates three existing quality reporting programs:

Quality	Resource use
Advancing Care Information	Clinical practice improvement activities

Physicians participating in MIPS will be eligible for positive or negative Medicare payment adjustments that start at 4 percent and gradually increase to 9 percent for 2022 (Graphic on the next page). The base comparison score will be adjusted based on all MIPS-eligible professionals during the previous performance period. Payment adjustments will follow a bell-shaped curve on a sliding scale and are budget neutral.

## How does it Work?

Part 1	Part 2	Part 3	Part 4
<b>Negative Score</b> Receive a negative payment adjustment on each Medicare Part B claim for the following year.	<b>Neutral Score</b> Receive no payment adjustment.	<b>Positive Score</b> Receive a positive payment adjustment on each Medicare Part B claim for the following year.	

Physicians with higher scores will be eligible for a positive payment adjustment of up to 3x the base payment for a given year. In 2019, the positive payment adjustment will be 4%, so the top performers will be eligible for a positive payment adjustment of up to 12%. For 2019-2024, an additional positive payment adjustment of up to 10% is available to "exceptional" performers. This has yet to be defined.

# Do I qualify for MIPS?

# Section 3: Benefits of Participation

This section contains some suggestions on how to start preparing yourself for MIPS.

The benefits list can be extended depending on how the admin pleases. This list can be shared through email, exported to edit for your staff, and other ways depending on the device's software capabilities.

## < Benefits of Participating in MIPS

Consumers are at the center of the health care experience and are supported by a more coordinated care team.

---

Pay is based on quality and patient health improvements instead of costs climbing regardless of health improvements.

---

Rather than responding to an injury or illness, Quality based care is used to prevent and treat chronic conditions while focusing on keeping people healthy.

---

Allows Practices to enhance their organization's operation and impact of care by using technology, such as Electronic Health Records (EHR), to their advantage.

---

# Section 4: Tips on Migrating to MIPS

This section is similar to the “Benefitis” section above. It contains some suggestions on how to start preparing yourself for MIPS. The benefits list can be extended depending on how the admin pleases. This list can also be shared through email, exported to edit for your staff, and other ways depending on the device’s software capabilities.

## < Tips for Migrating to Quality Based Care

Educate your organization, particularly the C-suite, as soon as possible, e.g. leverage the MIPS Financial Calculator

---

Estimate your MIPS score using your current MU, PQRS and VBM scores

---

Optimize MU & PQRS/VBM Quality to maximize the MIPS score (Makes up 75% of the 2019 MIPS score)

---

Evaluate staff, resources and organizational structure within your practice, e.g. combine MU & PQRS efforts under a single leader

---

Report, review and apply your data to drive improvement

# Section 6: Help

This section will allow users to view questions, ask their own, and view contact information for people and organizations that can help users prepare for MIPS. If either button on the third page is clicked, it will open the user's communication app of choice with the corresponding category with the contact information they need to initiate contact with their patient.

# Section 7: Updates

The final section contains Updates, a reverse chronological list that can display websites and messages about any new occurrences regarding MIPS managed by the admin. The list may pull down information that is not available on the app itself (i.e. newly announced information, Tips from other practitioners, etc.) This list is maintained by the admin. There is also potential for an option to let users suggest links and posts, based on approval by the admin
