To whom it may concern,

SOAPdrones Entry in the 2018 UAS Flight and Payload Challenge

CanberraUAV is a not-for-profit community group based in Canberra, Australia. We are dedicated to developing and promoting the field of civilian UAVs. CanberraUAV have been the winners of the UAV Challenge, an international UAV search and rescue challenge based in Queensland, Australia in 2012, 2014 and 2016 consecutively.

CanberraUAV can verify that SOAPdrones is a Canberra based business and that Matthew Altenburg has attended multiple CanberraUAV flying events. We can verify that SOAPdrones are in the early stages of developing heavy lift UAVs.

Yours sincerely

James Owens

President
