Verification Rate	50 People Per Minute

ANDI® OTG is the fast, accurate, zero-contact Fingerprint-based identity solution for enrollment, verification, and access control. ANDI™ OTG is ideal for high security applications like border control, airport ticket verification, visitor management, ticketless event access, medical access, facility access and checkpoint authorization. The simple-to-use OTG system takes user fingerprints at walking speed. Custom versions are available.

**Fast, Accurate, & Clean** – Get there with no delay, hassle, or germs

- OTG moves 50 people per minute.
- FBI-quality fingerprints ensure that no twins or doppelgangers will confound your security system using the ANDI® OTG.
- The Common Cold, SARS, Ebola, H1N1, Measles, and many other looming pandemics reveal a vulnerability of security based on contact biometrics. OTG's zero-contact biometrics will survive the zombie apocalypse.

**Built for the User Experience** – Fast, fun, simple and natural. We designed the ANDI® OTG around a very simple idea: People use our devices. This is why so many people say that the ANDI® OTG is fun and easy to use.
