

Window Washers

Do you have dirty, grimy windows that never seem to be clean?

Are they so dirty that you can't even see the beauty of nature?

As a family with a busy lifestyle, do you not have enough time to clean them?

...WELL THEN YOU NEED TO TRY THE ***WINDOW WASHER!***

Design

Wipers can
extend and
retract

- **The Window Washer cleans your windows with a press of a button on your smartphone.**
- **On each window lies a windshield wiper that takes care of all the dirty spots and marks that build up over time.**
- **Even when you are not home, your windows can be squeaky clean!**

Patent Search

- Looked up keywords such as “house window”, “windshield wipers”, “window wiper”, “windshield wiper-controlled smartphone” and nothing related to a windshield wiper being used as a household item came up.
- In addition, nothing related to a windshield wiper being controlled by a smartphone came up.
