Email: nopneullc@gmail.com
Web: www.nopneu.co

Description of company:

Nopneu is an at-home single use diagnostic testing kit for pneumonia that will change the outcome for infant mortality. It is engineered to detect key pneumonia biomarkers quickly and conveniently from the comfort of your home.

Statement of support:

Temiloluwa was one of 30 companies who submitted an outstanding product that has the opportunity for widespread impact among families. Nopneu's at home pneumonia diagnostic testing kit will prove to be a key commercial product for families to reduce infant mortality rates not just in America but across the world. Temiloluwa was selected as the winner based on her company having the strongest plan for commercialization and impact. We are in full support of her business plan submission.
