Pop-Up Review of Systems Questions

(BREAST, CONST, CVS, ENDO, GI, GU, HEENT, HEME, MSK, NEURO, PSYCH, RESP, SKIN)

Some of these questions are gender dependent and will change depending on the gender entered for the patient. The gender dependent questions are indicated as such:

* For Females only (See BREAST and GU section)

**For Males only (See GU Section)

If the patient does not identify with either Male/Female genders all questions will be included.

1. CONST

- a. Weight Changes
- b. Fatigue
- c. Weakness
- d. Fever
- e. Chills
- f. Night Sweats

2. SKIN

- a. Pigmentation Changes
- b. Dryness
- c. Itching
- d. Rashes
- e. Sores
- f. Lumps
- g. Nevi
- h. Bruising
- i. Bleeding
- j. Hair Changes
- k. Nail Changes

3. BREAST*

- a. Pain
- b. Skin Changes
- c. Masses/Lumps
- d. Trauma
- e. Lactation
- f. Discharge
- g. Nipple Changes

4. CVS

- a. Chest Pain
- b. Palpitations
- c. Tachycardia
- d. Dyspnea on Exertion

- e. Orthopnea
- f. Paroxysmal Nocturnal Dyspnea
- g. Edema
- h. Intermittent Claudication
- i. Cold Extremities

5. RESP

- a. Shortness of Breath
- b. Wheezing
- c. Cough
- d. Sputum
- e. Hemoptysis
- f. Night Sweats
- g. Pleurisy
- h. Tuberculosis Exposure
- i. Respiratory Infection History

6. GI

- a. Abdominal Pain
- b. Appetite Changes
- c. Nausea
- d. Vomiting
- e. Heartburn
- f. Dysphagia
- g. Bowel Movement Frequency Changes
- h. Bowel Movement Changes
- i. Stool Color Changes
- j. Diarrhea
- k. Constipation
- l. Jaundice

7. GU

- a. Frequency
- b. Hesitancy
- c. Urgency
- d. Polyuria

- e. Dysuria
- f. Hematuria
- g. Nocturia
- h. Incontinence
- i. Urinary Retention
- j. Pain or Colic
- k. Kidney Stones
- l. Penile Discharge**
- m. Sores**
- n. Testicular Pain**
- o. Masses**
- p. Erectile Dysfunction**
- q. Menstrual Irregularity*
- r. Dysmenorrhea*
- s. Metrorrhagia*
- t. Vaginal Discharge*
- u. Itching*
- v. Sores*
- w. Hot Flashes/Sweats*
- x. Libido
- y. Sexual Function Problems

8. HEAD

- a. Headaches
- b. Migraine
- c. Trauma
- d. Syncope
- e. Seizures

9. EYES

- a. Pain
- b. Vision loss
- c. Diplopia
- d. Hemianopsia
- e. Trauma

- f. Erythema
- g. Discharge
- h. Tearing
- i. Glasses

10. EARS

- a. Pain
- b. Hearing Loss
- c. Tinnitus
- d. Vertigo
- e. Discharge

11. NOSE

- a. Rhinorrhea
- b. Stuffiness
- c. Sneezing
- d. Allergies
- e. Epistaxis
- f. Sinus pain
- g. Discharge
- h. Obstruction

12. MOUTH

- a. Mouth soreness
- b. Tongue soreness
- c. Tooth pain
- d. Bleeding gums

13. THROAT

- a. Sore Throat
- b. Dysphagia
- c. Odynophagia
- d. Hoarseness
- e. Vocal changes

14. NECK

- a. Swelling
- b. Lymphadenopathy

- c. Goiter
- d. Stiffness
- e. Limitation of Motion

15. MUSCULOSKELETAL

- a. Pain
- b. Swelling
- c. Muscle Weakness
- d. Muscle Atrophy
- e. Joint Stiffness
- f. Joint Range of Motion Changes
- g. Joint Swelling
- h. Joint Redness
- i. Night Cramps

16. NEUROLOGIC

- a. Numbness
- b. Tingling
- c. Paresthesias
- d. Tremors
- e. Involuntary Movements
- f. Muscle Weakness
- g. Gait Changes
- h. Falls
- i. Headache
- j. Loss of Consciousness
- k. Vertigo
- l. Sleep Changes

17. HEMATOLOGIC

- a. Easy Bruising
- b. Bleeding
- c. Petechiae
- d. Purpura
- e. Clotting

18. ENDOCRINE

- a. Heat Intolerance
- b. Cold Intolerance
- c. Excessive Sweating
- d. Polyuria
- e. Polydipsia
- f. Polyphagia
- g. Body Configuration Changes
- h. Hair Distribution Changes

19. PSYCHIATRIC

- a. Mood Changes
- b. Anxiety
- c. Depression
- d. Memory Changes
- e. Difficulty with Concentration
- f. Hallucinations
- g. Suicidal Thoughts
- h. Homicidal Thoughts

PMH

1. Conditions	AFIB, CAD, CHF, CKD, COPD, CVA, Depression, HLD, HTN, IDDM, NIDDM, OA
2. Medications	Swipe up to Top Meds by Conditions (see below)
3. Allergies	Amoxicillin, Ampicillin, Aspirin, Ibuprofen, Insulin, Naproxen, Penicillin, Sulfa drugs, Tetracycline
4. Surgeries	C-Section, CABG, Cataract, Cholecystectomy, Coronary PCI, Coronary Stenting, Hysterectomy, Joint Replacement, ORIF
5. Family History	Mother, Father, Brother, Sister Maternal, Paternal Grandmother, Grandfather CA, CAD, CVA, DM, HLD, HTN

Top Meds by Conditions - Only conditions that were previously added in “Medical Conditions?” will appear in the toolbar.

AFIB	Digoxin, Diltiazem, Flecainide, Multaq, Sotalol, Warfarin, Xarelto
CAD	Amlodipine, Aspirin, Atorvastatin, Carvedilol, Clopidogrel, Lisinopril, Metoprolol S., Metoprolol T., Rosuvastatin, Valsartan
CHF	BiDil, Carvedilol, Digoxin, Furosemide, Lisinopril, Metoprolol ER, Ramipril, Spironolactone, Valsartan
CKD	Ethacrynic Acid, Furosemide, Torsemide
COPD	Advair, Albuterol, Montelukast, Prednisone, Symbicort, Tiotropium
CVA	Alteplase, Aspirin, Clopidogrel
DLD	Atorvastatin, Ezetimibe, Gemfibrozil, Niacin, Pravastatin, Rosuvastatin, Simvastatin
Depression	Abilify, Celexa, Cymbalta, Effexor XR, Lexapro, Prozac, Sertraline, Wellbutrin XL, Xanax, Zoloft
HTN	Amlodipine, Enalapril, HCTZ, Hydralazine, Labetalol, Lisinopril, Metoprolol S. ER, Nebivolol, Olmesartan, Valsartan
IDDM	Glimepride, Liraglutide, Metformin, Pioglitazone, Sitagliptin Humalog, Insulin Regular, Lantus, Levemir, Novolog

NIDDM	Glimepride,Liraglutide,Metformin,Pioglitazone,Sitagliptin
OA	Acetominophen,Celecoxib,Diclofenac,Diclofenac Topical,Ibuprofen,Meloxicam

Review of Systems Questions

Toolbar items will scroll to the corresponding set of questions. HEENT, standing for Head Eyes Ears Nose Throat, will scroll to Head. Note, this is unlike in CC+HPI page where selecting a toolbar item will bring up a pop-up modal.

(CONST, SKIN, BREAST, HEENT, CVS, RESP, GI, GU, MSK, NEURO, HEME, ENDO, PSYCH)

Some of these questions are gender dependent and will change depending on the gender entered for the patient. The gender dependent questions are indicated as such:

* For Females only (See BREAST and GU section)

**For Males only (See GU Section)

If the patient does not identify with either Male/Female genders all questions will be included.

20. CONST

- a. Weight Changes
- b. Fatigue
- c. Weakness
- d. Fever
- e. Chills
- f. Night Sweats

21. SKIN

- a. Pigmentation Changes
- b. Dryness
- c. Itching
- d. Rashes
- e. Sores
- f. Lumps
- g. Nevi
- h. Bruising
- i. Bleeding
- j. Hair Changes
- k. Nail Changes

22. BREAST*

- a. Pain
- b. Skin Changes
- c. Masses/Lumps
- d. Trauma
- e. Lactation
- f. Discharge
- g. Nipple Changes

23. CVS

- a. Chest Pain
- b. Palpitations
- c. Tachycardia
- d. Dyspnea on Exertion
- e. Orthopnea
- f. Paroxysmal Nocturnal Dyspnea
- g. Edema
- h. Intermittent Claudication
- i. Cold Extremities

24. RESP

- a. Shortness of Breath
- b. Wheezing
- c. Cough
- d. Sputum
- e. Hemoptysis
- f. Night Sweats
- g. Pleurisy
- h. Tuberculosis Exposure
- i. Respiratory Infection History

25. GI

- a. Abdominal Pain
- b. Appetite Changes
- c. Nausea
- d. Vomiting

- e. Heartburn
- f. Dysphagia
- g. Bowel Movement Frequency Changes
- h. Bowel Movement Changes
- i. Stool Color Changes
- j. Diarrhea
- k. Constipation
- l. Jaundice

26. GU

- a. Frequency
- b. Hesitancy
- c. Urgency
- d. Polyuria
- e. Dysuria
- f. Hematuria
- g. Nocturia
- h. Incontinence
- i. Urinary Retention
- j. Pain or Colic
- k. Kidney Stones
- l. Penile Discharge**
- m. Sores**
- n. Testicular Pain**
- o. Masses**
- p. Erectile Dysfunction**
- q. Menstrual Irregularity*
- r. Dysmenorrhea*
- s. Metrorrhagia*
- t. Vaginal Discharge*
- u. Itching*
- v. Sores*
- w. Hot Flashes/Sweats*
- x. Libido

- y. Sexual Function Problems

27. HEAD

- a. Headaches
- b. Migraine
- c. Trauma
- d. Syncope
- e. Seizures

28. EYES

- a. Pain
- b. Vision loss
- c. Diplopia
- d. Hemianopsia
- e. Trauma
- f. Erythema
- g. Discharge
- h. Tearing
- i. Glasses

29. EARS

- a. Pain
- b. Hearing Loss
- c. Tinnitus
- d. Vertigo
- e. Discharge

30. NOSE

- a. Rhinorrhea
- b. Stuffiness
- c. Sneezing
- d. Allergies
- e. Epistaxis
- f. Sinus pain
- g. Discharge
- h. Obstruction

31. MOUTH

- a. Mouth soreness
- b. Tongue soreness
- c. Tooth pain
- d. Bleeding gums

32. THROAT

- a. Sore Throat
- b. Dysphagia
- c. Odynophagia
- d. Hoarseness
- e. Vocal changes

33. NECK

- a. Swelling
- b. Lymphadenopathy
- c. Goiter
- d. Stiffness
- e. Limitation of Motion

34. MUSCULOSKELETAL

- a. Pain
- b. Swelling
- c. Muscle Weakness
- d. Muscle Atrophy
- e. Joint Stiffness
- f. Joint Range of Motion Changes
- g. Joint Swelling
- h. Joint Redness
- i. Night Cramps

35. NEUROLOGIC

- a. Numbness
- b. Tingling
- c. Paresthesias
- d. Tremors
- e. Involuntary Movements
- f. Muscle Weakness

- g. Gait Changes
- h. Falls
- i. Headache
- j. Loss of Consciousness
- k. Vertigo
- l. Sleep Changes

36. HEMATOLOGIC

- a. Easy Bruising
- b. Bleeding
- c. Petechiae
- d. Purpura
- e. Clotting

37. ENDOCRINE

- a. Heat Intolerance
- b. Cold Intolerance
- c. Excessive Sweating
- d. Polyuria
- e. Polydipsia
- f. Polyphagia
- g. Body Configuration Changes
- h. Hair Distribution Changes

38. PSYCHIATRIC

- a. Mood Changes
- b. Anxiety
- c. Depression
- d. Memory Changes
- e. Difficulty with Concentration
- f. Hallucinations
- g. Suicidal Thoughts
- h. Homicidal Thoughts

- Allergic and Immunologic History

1. results of tuberculin tests and others
 2. desensitization
 3. serum injections
 4. vaccinations
 5. immunizations
- Venereal Disease History
 1. Sexual activity (sex of partners and practices)
 2. chancre
 3. bubo
 4. urethral discharge
 5. treatment of venereal diseases

Physical Exam

/*****

Toolbar items are at first normal findings during the first question (e.g. “General Exam Normal?”). If the user swipes NO to this first question, the items that are numbered are added onto the toolbar. E.g. For the question “General appearance normal?” if the user swipes “No” the phrase “No acute distress” is added to the Toolbar items “Attentive, Non-Toxic, Well Nourished, Well Groomed” so that the Toolbar now reads “No acute distress, Attentive, Non-Toxic, Well Nourished, Well Groomed”

*****/

- Vitals
 1. Blood Pressure : Syst _ Diastolic _
 2. Heart Rate
 3. Respiratory Rate
 4. Temperature
 5. O2 Saturation(Toolbar: Height..., Weight..., Sitting BP, Standing BP, Supine BP)
- General Appearance Normal?
 1. No Acute Distress(Toolbar: Attentive, Non-Toxic, Well Nourished, Well Groomed)
- Cardiovascular Exam Normal?
 1. S1, S2
 2. Regular rate and rhythm
 3. No murmurs, rubs or gallops(Toolbar: No Abdominal Bruit, No Carotid Bruit, No JVD, No lower extremity edema, Pedal pulses 2+ bilaterally)
- Respiratory Exam Normal?
 1. Clear to auscultation bilaterally

2. No wheezes, rales or rhonchi
(Toolbar: Clear to Percussion Bilaterally, No Tactile Fremitus)
- Gastrointestinal Exam Normal?
 1. Soft, non-tender, non-distended
 2. Bowel sounds normal
 3. No organomegaly
(Toolbar: No CVA Tenderness, FOBT negative, No palpable hernias)
 - Eye Exam Normal?
 1. PERRLA
 2. Extraocular Movements Intact
(Toolbar: C/D Ratio normal; Conjunctiva pink; Disc margins sharp; Red reflex intact; Sclera white; Vision...)
 - Head, Ears, Nose, Mouth, Throat Exam Normal?
 1. Normocephalic, Atraumatic
 2. External auditory canal and tympanic membranes normal bilaterally
 3. Septum and turbinates normal, no mucosal inflammation bilaterally
 4. Mucus Membranes Moist
 5. Oropharynx normal
(Toolbar: Hearing normal, Nasal mucosa pink, No sinus tenderness, Septum midline, Pharynx without exudates)
 - Neck Normal?
 1. Neck supple
 2. Trachea midline
 3. No thyromegaly
 4. No thyroid tenderness
(Toolbar: No Lymphadenopathy or palpable masses, No palpable thyroid masses)
 - Musculoskeletal Exam Normal?

1. No swelling or deformity
2. Full ROM in all joints
3. Gait with normal base

(Toolbar: Muscle strength 5/5..., Straight leg raise negative)

- Neurological Exam Normal?

1. CN 2-12 grossly intact
2. Deep Tendon Reflexes 2+
3. No sensory loss

(Toolbar: Babinski negative, No pronator drift, Rapid alternating movements intact, Finger-to-nose intact, Heel-to-shin intact)

- Psychiatric Exam Normal?

1. Alert
2. Oriented to person, place and time
3. Mood good
4. Affect good

(Toolbar: Good insight, Good judgement, Speech fluent, Thought process coherent*Mini Mental Exam*)

- Skin Exam Normal?

1. Warm
2. Moist
3. Nails without clubbing or cyanosis
4. No suspicious nevi
5. No rash, petechiae, or ecchymosis

(Toolbar: No induration, No subcutaneous nodules, No tightening)

- Lymphatic Exam Normal?

1. No lymphadenopathy

- Genitourinary Exam Normal? [Male]

1. No penile discharge or lesions

2. No scrotal swelling or discoloration
3. Testes bilaterally descended, smooth and without masses

(Toolbar: Circumcised; Epididymis nontender; No inguinal or femoral hernias; Prostate smooth, non-tender on DRE).

- Genitourinary Exam Normal? [Female]

1. External genitalia without erythema, lesions or masses
2. Normal hair distribution
3. Vaginal mucosa pink
4. Cervix pink, without lesions, and without discharge
5. No cervical motion tenderness
6. Uterus midline, smooth and not enlarged
7. No adnexal tenderness or masses palpated
8. Rectovaginal wall intact
9. Rectal vault without masses

(Toolbar: Cervix Parous, Cul de sac smooth without tenderness, Normal estrogen effect..., No inguinal adenopathy, No lesions..., Pap smear obtained, Uterus anteverted, Uterus in normal position, Uterus retroverted, Normal vaginal discharge)

- Breast Exam Normal?

1. Breast symmetric and smooth without masses
2. Nipples without discharge
3. No axillary adenopathy

(Toolbar: No lesions, No erythema, No skin changes)
