#### **Executive Summary**

Integrity Pure & Natural LLC- Specializing in Nature's Skincare. Made with Natural Oils, Essential Oils, Vitamins and Minerals. Our bodies are designed to better absorb what nature has to offer.

Our products are created with natural ingredients and researched to provide effective high quality products at affordable prices. In the interest of our own family's health concerns our line of products are Gluten-free, Dairy-free, Dye Free, Paraben-free, and use no animal testing.

According to a new market report published by Transparency Market Research titled "Organic Personal Care Products Market for Skin Care, Hair Care, Oral Care and Cosmetics—Global Industry Analysis, Size, Share, Growth, Trends and Forecast, 2012–2018," the global demand for organic personal care products was over \$7.6 billion in 2012 is expected to reach \$13.2 billion by 2018, growing at a CAGR of 9.6% from 2012 to 2018. The global organic personal care products market witnessed steady growth in recent years due to increasing consumer concerns regarding personal health and hygiene.

Our primary customers are people who desire a more natural approach to skincare and especially people who suffer with gluten or skin sensitivity issues. The most common skin reaction from beauty products is called "irritation contact dermatitis, which can be decreased by using more natural ingredients.

At this early stage of growth, Integrity Pure & Natural does not yet have any competitors in my local community. As owner, I am a member of the Westland Chamber of Commerce and am the only company that provides this type of skincare product.

My plan to grow the company is to approach retailers who are in the need or desire of my products. Then to move my production to a commercial kitchen and hire employees to keep up with the increasing demand for all natural skin care products.

Integrity Pure & Natural LLC financials are attached at the bottom pages.

#### **Company Introduction**

Integrity Pure & Natural LLC- Specializing in Nature's Skincare. Made with Natural Oils, Essential Oils, Vitamins and Minerals. Our bodies are designed to better absorb what nature has to offer.

Our products are created with natural ingredients and researched to provide effective high quality products at affordable prices. In the interest of our own family's health concerns our line of products are Gluten-free, Dairy-free, Dye Free, Paraben-free, and No use animal testing.

My name is DeAnna Gilbert and I have been a Licensed Cosmetologist for 18 years. My husband and I have 3 children and we all suffer with skin sensitivities so we are careful about what we put in and on our bodies. My daughter is gluten intolerant and has been advised by her Doctor to stay away from gluten even in her shampoo, skincare, and toothpaste! Come to find out there are many harmful ingredients in what people use every day! After learning how many chemicals and toxins and even gluten are in our daily products, I knew it was time to rethink about what we do daily to our bodies. In 2014, I began research with my close friend who was raising dairy goats and already making unique goat milk soaps for specific skincare issues. We set out on a journey to find all natural and gluten-free skincare products and was very disappointed in our conclusion.

Working in the Beauty Industry and knowing about skincare I decided to start making my own. My close friend who has the goat farm taught me the requirements of lotion and soap making. With the experience she taught me and with the skincare knowledge I knew from cosmetology, I decided to start making even more types of products for family & friends. Before I knew it I had created about 15 different products!

The positive feedback and testimonies I received encouraged me to make a full line of all natural products. After a great deal of research on Companies claiming to be all natural, it was disappointing to read labels and realize they were not as natural as they wanted you to believe. For this reason Integrity Pure & Natural LLC was born. Thankfully we learned that there IS a better, more natural and healthy way of living. It is amazing how Nature has so much to offer.

Integrity Pure & Natural LLC focuses on products that are healthy for you. Our all-natural products are like applying vitamins and minerals right onto your skin. Our skin absorbs 60% of what we apply on it, therefore it should be as healthy as what we eat.

We offer a full line of all-natural products, such as:

All-Natural Lotions, Lip Balms, Daily Face Care for different skin types, Mineral Salt Bath Soaks, Bug Repellant, After Sun Spray, Charcoal & Sea Kelp Mask, Rose Kaolin Mask, Soaps, Shea Butter Lotion Sticks, Aromatherapy Sprays, Argan Oil Blend, Body Powders, Cuticle Care, Deodorants, and Hair Care. Our company is looking forward in adding in new products as we grow.

#### Mission:

Integrity Pure & Natural's Mission is to make all-natural skincare that will be more affordable, healthy, and trustworthy. We value the natural approach to skincare and will be honored in helping others improve their well-being with Integrity Pure & Natural Products.

Integrity Pure & Natural, LLC was formed in September of 2014. DeAnna Gilbert is the sole owner and currently the only employee. Our products are sold primarily through our website, home parties, and vendor shows

#### **Industry Analysis**

According to a new market report published by Transparency Market Research titled "Organic Personal Care Products Market for Skin Care, Hair Care, Oral Care and Cosmetics—Global Industry Analysis, Size, Share, Growth, Trends and Forecast, 2012–2018," the global demand for organic personal care products was over \$7.6 billion in 2012 is expected to reach \$13.2 billion by 2018, growing at a CAGR of 9.6% from 2012 to 2018. The global organic personal care products market witnessed steady growth in recent years due to increasing consumer concerns regarding personal health and hygiene. In addition, widening distribution channels and new product development are the other factors that contribute to the market growth. However, limited shelf life, raw material supply and a stringent regulatory scenario are expected to be key challenges to market growth over the next five years.

Skin care products dominated the demand in the global organic personal care products market in 2011, with a 32.1% share, followed by hair care and cosmetics segments. In terms of revenue, the market for organic skin care products is expected to grow at a rate of 9.9% from 2012 to 2018. Demand for the three segments increased due to the entry of large multinationals in the organic personal care products space giving them tremendous visibility and increasing their accessibility across varied consumer segments. The three segments are also expected to dominate the global organic personal care market in the coming years. North America accounted for 34.8% of the global demand in 2011 and is expected to grow at a CAGR of 9.8% from 2012 to 2018. Europe and Asia Pacific followed North America in terms of organic personal care product consumption. This dominance is driven by new product launches and widening distribution channels. Asia Pacific is expected to be the fastest-growing region at an estimated CAGR of 9.7% from 2012 to 2018, due to rising consumer incomes, changing lifestyles and increasing awareness and demand for organic personal care products. Japan and China dominated the Asia Pacific market, together accounting for over 64% market revenue in 2011. At the country level, the U.S. was the largest market for organic personal care products followed by Japan and Germany.

The U.S. demand for organic products is estimated to grow at a CAGR of 10.2% from 2012 to 2018. Strong awareness about the efficacy of organic personal care products and lifestyle changes are key drivers in this region. Countries such as India, China, Brazil and Mexico offer huge market opportunities for organic personal care products as well. Some of the leading

brands in the organic personal care products market include Bare Essentials, Aveda, Burt's Bee, Origins, Kiehls, and The Body Shop..

#### **Customers**

Our primary customers are people who desire a more natural approach to skincare and especially people who suffer with gluten or skin sensitivity issues. The most common skin reaction from beauty products is called "irritation contact dermatitis. The symptoms usually consist of stinging, redness, swelling, itching, or blisters. This can be caused from chemicals, parabens, fragrances, preservatives, gluten, dyes, and other irritants. To fill this need in the market our company provides natural products with less possible irritants making them with ingredients that are better absorbs by our bodies. The geographic area for this type of customer is nationwide due to the increase of gluten allergies and skin sensitivities on the rise.

#### Competition

At this early stage of growth, Integrity Pure & Natural does not yet have any competitors in my local community. As owner, I am a member of the Westland Chamber of Commerce and am the only company that provides this type of skincare product. As I grow into a larger company, I predict my competitors would be companies such as Bare Essentials, Burt's Bee, Origins, and The Body Shop.

Strengths --- Gluten-Free All-Natural Skincare, Quality and reliability, Product innovation ongoing, affordable pricing, fills a need in the market

Weakness – Product testing is still in progress, need larger facility to produce products on a faster scale, Need to hire employees to keep up lager purchase orders

Opportunities – Fresh made Skincare, can hire employees and provide jobs

Threats - Limited shelf life, need to grow before hiring employees

#### Marketing/Sales Plan

My plan to grow the company is to approach retailers who are in the need or desire of my products. Then to move my production to a commercial kitchen and hire employees to keep up with making the skin care products.

Currently I demo at home parties and vendor shows and provide education on the benefits of changing over to all natural skin care. I use social media as in Facebook, Instagram, Twitter and I sell from my website. I will be investing in catalogs, brochures, and educating the staff of the retailers who will carry my products. I plan to continue on this successful path.

I've attend 10 Vendor Shows and 26 Home Parties in the past 11 months.

My pricing structure is based on my profit and margin data information. Fair margins to the consumer, the retailer, and for my company. Very competitive pricing in regards to other all natural skin care products on the market. (Prices range from \$3.00 to \$25.00)

#### **Management and Operations**

#### Management

DeAnna Gilbert, A wife and mother of 3 children. Licensed Cosmetologist for 18 years. Knowledgeable in the beauty industry, creator of products, label designer, marketing and sales, fundraiser organizer.

#### **Operations**

The owner is responsible for all daily operations of the business. This includes: ordering raw material, ordering bottles & packaging, making the products, filling the bottles, designing and printing the labels, keeping inventory, marketing and sales.

# Research and Development Plan

Currently there are no FDA regulations for skin care products other than label guidelines. However, I would like to get each product tested at a Cosmetic Laboratory for the extra credibility of the integrity with each product.

Re: Local Winner Statement of Support - Integrity Pure & Natural LLC

Brownstown, Michigan

Dear Sir or Madam:

Following review of five applicants' packet and a presentation at our Pitch Competition held on November 18, 2015 in Brownstown, Michigan, the judges unanimously select Integrity Pure & Natural LLC as our local winner. The four judges believed Integrity Pure & Natural LLC has a solid vision with a supporting business plan to further produce and commercialize their variety of all-natural skin care products.

The judges assessed the applicants and selected Integrity Pure & Natural LLC based on their ability to have the greatest potential for success. The name *Integrity Pure & Natural* exemplifies their passion and mission to provide products in the crowded skin care market by producing all natural products to customers with skin sensitivities to gluten, dairy or chemicals.

The owner, Mrs. DeAnna Gilbert and her company has an exceeding advantage over their competition by producing skin care products that are all natural, gluten free and dairy free with no animal testing, which many customers are etching to discover and relieve skin irritation. Also, the product's price point is very affordable in the natural skin care market, which appeals to consumers along with their inspirational product messaging such as, "Let integrity and uprightness preserve me; for I wait on thee" – Psalm 25:21.

The success of these skin care products fills a need and meets the InnovateHER 2016 Challenge Criteria:

Measurable Impact on the Lives of Women and Families – Integrity Pure & Natural skin care products used by women, men, and their immediate and extended family members have comfort in knowing that their gluten, dairy, and chemical sensitivities will not impact their family and work life. Recent studies show that from eczema and acne to Psoriasis and Dermatitis Herpetiformis from gluten that is digested and/or applied to the skin (the body's largest organ) can cause some extremely uncomfortable skin issues. As we know, gluten is a protein in wheat and other grains and because of its gumminess it is also added to lotions, cosmetics, toothpaste, and shampoo. The impacts on women and men with skin sensitivities have a debilitating effect on their lives not to mention the lives of family members that rely on them for support and basic needs.

Health conditions caused by not using the correct skin care products can be a full time frustration, impacting on all areas of daily life. Working outside the home can be especially affected with two of the biggest problems being absenteeism and presenteeism. 58% of people with skin conditions affected by gluten and dairy intolerance report absence from work and on average select skin conditions reduce productivity at work by almost 8%, which has a significant financial impact on women and their families.

Potential for Commercialization – The 1½ year old company has a solid customer base with a large percentage of repeat consumers. Many consumers completed service/product surveys and/or commented on social media to encourage others to experience the health benefits of these quality all natural products. Mrs. Gilbert has been aggressive to respond to survey results and comments and has taken steps to continuously implement a solid company and product line. Products are currently sold at health and beauty expos, through social media and online sales. Mrs. Gilbert has the skills, knowledge, and financial support to move into a commercial kitchen to expand product supplies to niche health and beauty retailers and eventually mass retailers. This expansion plan will support job growth in the Michigan market and grow product lines. It is not all about selling products; it's about educating consumers and retailers about the clinically proven affects of all natural, gluten, and dairy free products. Currently there are no FDA and USDA regulations for skin care. However, Mrs. Gilbert plans to get each product tested at a cosmetic laboratory to ensure quality and integrity of products sold.

Need in the Marketplace – Integrity Pure & Natural is at the right place and time to flourish and grow the product line...according to a market report published by Transparency Market Research the demand for organic personal care products is expected to reach \$13.2 billion by 2018. Skin care products dominated the demand in the organic personal care products market in 2011 and continued to do so with approximately 32%. In terms of revenue; the market for organic/natural skin care products is expected to grow at a rate of 9.9% by 2018.

Mrs. Gilbert clearly understands natural products don't need to position themselves as "more effective" to win over consumers – natural is enough. But consumers that are engaged with natural ingredients also prefer to use them due to rising concerns for health safety, green consciousness, and growing consumer awareness about hazards in synthetic chemicals...this is a win-win proposition for Integrity Pure & Natural LLC to expand and grow their vision and mission and to provide knowledgeable consumers with affordable natural skin care products.

Respectfully Submitted,

Brownstown Downtown Development Authority

Sue Trussell

Assistant Director
